

Tzu Chi Medical Foundation

Mission

The mission is to provide quality medical, dental, alternative medicine and vision care, along with health education and other health services to income disadvantaged residents regardless of their age, gender, race or religious affiliations with inspiring love and humanity to both the givers and receivers. Also we coordinate and manage medical resources across and beyond the United States collaborating closely with Tzu Chi International Medical Association (TIMA) organizing numerous outreaches worldwide.

- **Vision**
- The Vision of the Buddhist Tzu Chi Medical Foundation is to provide medical aid while inspiring love and humanity to both the givers and receivers.

Goal;

To provide quality health care to financially disadvantaged residents, regardless of their age, Gender, nationality or religious affiliations at minimal or no charge.

- To ensure quality health by providing preventative medical and dental care. To educate and promote the public's awareness of preventative medical care and pertinent health issues.
- To provide emergency medical relief to disastrous and/or disadvantaged areas. Care with Compassion, Give with Joy.

Tzu Chi Spirit

- Our vision is to provide medical care for those in need regardless of Gender, race, religion or Creed
- More importantly, it is to provide this care with compassion and gratitude,
- expecting nothing in return from those we serve.

- Personal referral to another health practitioner or prescription is not allowed.

Do not leave your workstation at any time. Should you need to be excused temporarily,

Please respect our clients' privacy. Do not discuss or comment about clients' medical records
